WEEK – 1

Experiment: Design Static Webpage Using HTML Components

Aim : To design and develop a **static webpage using HTML components** and understand the usage of various HTML elements such as headings, paragraphs, links, lists, tables, forms, audio, video, sections, and footer.

Description

HTML (HyperText Markup Language) is used to create and structure the content of web pages. In this experiment, a static webpage is designed for **Anil Neerukonda Institute of Technology & Sciences (ANITS)** using different HTML components.

The webpage contains information about the college, courses offered, departments, and application procedure. It also includes a **student details table, student registration form, audio and video elements**, and a **footer**. Various HTML tags such as <section>, <h1>, <h2>, <p>, <a>, , , <table>, <form>, <input>, <select>, <textarea>, <button>, <audio>, <video>, and <footer> are used.

HTML Components Used

HTML Component	Purpose
<section>	Divides the webpage into different sections
<h1>, <h2>, <h3>	Displays headings
<p>	Displays paragraphs
<a>	Creates a hyperlink
, , <u>	Provides text formatting
, ,	Creates unordered and ordered lists
<table>	Displays student information in tabular form
<form>	Creates a student registration form
<input>	Accepts user input
<select>	Provides a dropdown list
<textarea>	Accepts multiple lines of text
<button>	Creates buttons
<audio>	Embeds audio
<video>	Embeds video
<footer>	Displays footer information

Output:

The screenshot displays the ANITS (Andhra Pradesh National Institute of Technology & Science) website. The page includes a header with the ANITS logo and name. Below the header, there is a 'Welcome to Anits' section followed by a paragraph about the institute. A 'Courses offered' section lists various programs like B.Tech, M.Tech, MBA, and MCA. A 'Departments' section lists departments such as Computer Science and Engineering, Artificial Intelligence & Machine Learning, Electronics and Communication Engineering, Mechanical Engineering, and Civil Engineering. A 'To Apply' section provides a list of steps for registration. A 'Student Details' table shows a list of students with columns for Roll No, Name, Branch, and Email. Below this, there is a 'Student Registration' form with fields for Name, Email, Password, and Gender. There are also checkboxes for 'Reading Books', 'Watching TV', 'Cooking', and 'Playing'. A 'Comments' section with a text area and a 'Submit' button is also visible. At the bottom, there is a video player showing a video titled '367164_medium.mp4'.
